

Niax* catalyst Stannous Octoate

Description

Niax Catalyst Stannous Octoate is a clear, colorless to light yellow, low-viscosity fluid for use in flexible urethane applications.

Key Features and Typical Benefits

- Excellent high quality, uniform flexible foam
- Economical, high-speed, high-volume foam production
- Exceptional gel catalyst activity performance
- Excellent solubility in polyether polyols and most organic solvents

Typical Physical Properties

Appearance	Clear, yellow liquid
Viscosity at 20 °C, cSt	350
Color, Gardner	< 7
Total Tin, % by weight	>28
Stannous Content of total Tin, % by wt.	>96
Specific gravity at 20 °C	1.30

Typical properties are average data and are not to be used as or to develop specifications.

General Considerations for Use:

Niax Catalyst Stannous Octoate is sensitive to oxidation and properly sealed containers should be stored in a dry place. Product should be used as quickly as possible after opening.

Once product has been diluted into polyol, the solution should be used the same day.

Patent Status

Nothing contained herein shall be construed to imply the nonexistence of any relevant patents or to constitute the permission, inducement or recommendation to practice any invention covered by any patent, without authority from the owner of the patent.

Product Safety, Handling and Storage

Customers should review the latest Safety Data Sheet (SDS) and label for product safety information, safe handling instructions, personal protective equipment if necessary, emergency service contact information,

and any special storage conditions required for safety. Momentive Performance Materials (MPM) maintains an around-the-clock emergency service for its products. SDS are available at www.momentive.com or, upon request, from any MPM representative. For product storage and handling procedures to maintain the product quality within our stated specifications, please review Certificates of Analysis, which are available in the Order Center. Use of other materials in conjunction with MPM products (for example, primers) may require additional precautions. Please review and follow the safety information provided by the manufacturer of such other materials.

Limitations

Customers must evaluate Momentive Performance Materials products and make their own determination as to fitness of use in their particular applications.
